The XAS boX range

Everything you need...
It's time to think inside the boX!

Compressors

850 CFM

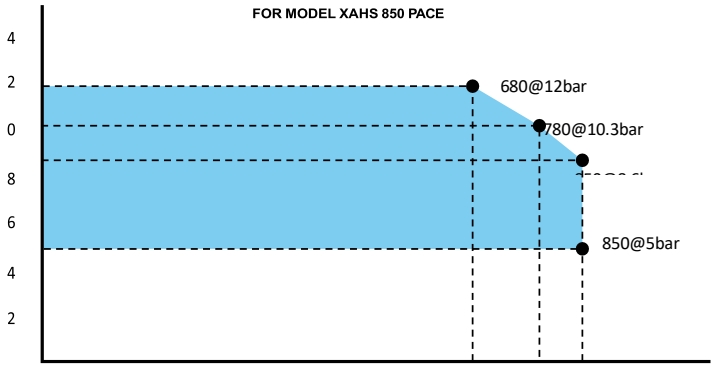
TECHNICAL DATA (XAHS 850 PACE)

Working pressure	bar (g)	5-12
	psi (g)	72 - 175
Free air delivery	cfm	848 - 679
	m3/min	24 - 20
	l/sec	400 – 320
Max. ambient temperature at sea level	°C	50
Min. starting temperature	°C	-10
Min. starting temperature (cold start aid)	°C	-25
Engine brand		Cummins
Tier		Stage IIIA / Tier 3
Engine model		QSB6.7-C260
Number of cylinders		6
Power output @ normal shaft speed	kW	194
Full load	rpm	2060
Unload	rpm	1300
Capacity		
Engine oil	l	17.8
Compressor oil	l	60
Fuel tank	l	320
Cooling system	l	35.5
Dimensions: box		
Length	mm	3177
Width	mm	1470
Height	mm	1987
Weight	kg	2500

Dimensions: undercarriage		
Length	mm	4893
Width	mm	2010
Height	mm	2313
Weight	kg	2800

Has your compressor got PACE?

PACE technology redefines the relationship between pressure and flow. A compressor with PACE technology can cover the application needs of, on average, three fixed pressure compressors.



PACE

What PACE is:

- An electronic regulation system programmed via a digital controller.
- A system that offers the widest operating pressure range within a single compressor. Allowing multiple pressure and flow combinations.
- A simple to use system with guaranteed accuracy and ensuring safety. Guaranteeing the longterm performance of the compressor.
- A system that gives you the versatility of three machines in one package.
